JOHN B. WOODS

Purchaser of The Tree Seed Business of
THE LONG-BELL LUMBER COMPANY
Longview, Washington, U. S. A.

Season 1934-1935

Cable Address:
Woods—Longview

I offer the following tree seeds, certified as to species and origin, collected from selected forests of the finest timber types. I indicate the sources by range of elevations in meters (1 meter—3.281 feet). Also the States in which seed collections are being made in 1934. These two factors indicating latitude and altitude may be considered reliably suggestive of variations in Average Annual Frost Free Period from 300 to 30 days.

Item No.	Genus	Species	Common Name	Range of Elevation and State	Price per Pound Postpaid			Price per Kilogram Postpaid
